Customer Reviews

Tim Homan is a writer and naturalist, and the author of THE HIKING TRAILS OF NORTH GEORGIA.

I bought this book, because I visited the area in June and want to go back in November. This is a challenging wilderness to navigate, and I wouldn't suggest you do it without a GPS. I too wish that the maps had been more detailed, the Tellico Plains map available through the Ranger station is more so. It is a great book, just was hoping for more knowledge gained, and it basically told me what I already know.

Tim Homan has done a great job of describing the trails of the Joyce Kilmer-Slickrock and Citico

Creek Wildernesses. Although the format is more oriented towards a readability style rather than a guidebook style, all the essential information was there and in a clear concise manner. He includes several maps that are useful, but I would have given it a higher rating if the maps had been more detailed.

Homan delivers a comprehensive and usable trail guide-one of the best I have seen. A recent trip to the area he describes would not have been as successful without it-like where to find a water source near our camping site.
