Customer Reviews

My kid was excited because it's tiny. But this is the problem with ordering online. I didn't realize how tiny it was. The pictures & text are small. Duh. It's a POCKET book.

Great book for kids to read while in the car or researching for a school project.

I love this series of books (won't review them all). They are a good source of information and are much more portable than their larger cousins (also a great buy).

For my granddaughter

Great gift for young reader. Then take a tour of a museum to see Egyptian artifacts.

The only thing I didn't like was the fact that it's not compatible with my kindle keyboard, I love the pictures and the brief explanations

Love the pictures and information. We got the whole set of these books. They are perfect for our youngsters. Thank you.

I order the wrong book, too small.
