The 5 Love Languages Singles Edition

Synopsis

This simple concept can revolutionize all your relationships!"Nothing has more potential for enhancing one's sense of well-being than effectively loving and being loved. This book is designed to help you do both of these things effectively." -Gary Chapman
With more than 10 million copies sold, The 5 Love Languages continues to strengthen relationships worldwide. Although originally crafted with married couples in mind, the love languages have proven themselves to be universal, whether in dating relationships or with parents, coworkers, or friends. The premise is simple: Different people with different personalities express love in different ways. Therefore, if you want to give and receive love most effectively, you've got to learn to speak the right language. The 5 Love Languages Singles Edition will help you . . . Discover the missing ingredient in past relationships Learn how to communicate love in a way that can transform any relationship Grow closer to the people you care about the most Understand why you may not feel loved by those who genuinely care about you Gain the courage to deeply express your emotions and affection to others Includes Personal Profile assessments and a study guide

Gary travels the world presenting seminars, and his radio programs air on more than 400 stations. For more information visit his website at www.5lovelanguages.com.

It is definitely a good book for couples and it has improved my relationship with my wife. If nothing else it shows you what things your partner is really looking for out of their spouse. I quickly found that my love language was "Acts of Service". Though it might not be sexy or macho to say that, it means more to me to have the dishes and laundry done when I come home after work or have minor home improvements taken care of before I get home. My wife and I have 2 small children and our house is hard to stay clean because every room feels like a mess. We do clean it all the time but it feels like a losing battle. My wife's love language is "Words of Affirmation". As you can tell from all these reviews I am much more of a writer than I am a talker. My wife is always looking for me to say how much I love and appreciate her because I don't say it often enough. A big part of improving your relationship with your spouse or boyfriend/girlfriend is to sticking with a date night to make sure you have quality time together. Especially if you have children or a high stress occupation. My wife and I have been together for 10 years and got stuck in the rut of an endless routine of doing everything we could for our kids, followed by daily chores and left little time for ourselves. Committing to 1 date night a week has really helped our relationship and improved our communication. I recommend the book for sure and found it inspiring and worth reading. All couples can benefit from reading this book. The only downside is I wish it could have been a little longer.

The stories from the author are interesting and I would have liked to have heard a bunch of his other examples of couples that he has dealt with. It was a short book and my wife and I finished it in 4 or 5 days and that was reading it slowly. The price is easily affordable. I found it best to photo copy the test quiz at the end instead of writing in the book so we can give the book to any family or friends who are struggling with their relationship.

A friend recommended to me when I just broke up. It opened my eyes and heart. I never thought about relationship can be analyzed this way. I can't believe it's a matter of science! During my growth, my parents never talked about how to date, and they tried to avoid the topic of men and women, as if we will figure out by myself. Unfortunately, this is like everything else, without being learned, we will make no matter how many mistakes and for how long to understand how to date a guy and how to choose a guy to date, how to manage or maintain a relationship. We will hurt a lot, fall a lot, cry a lot and even get perpetual mental wound. Just because we were not educated well enough on this topic, not like other things we were taught at school.

Excellent book and very insightful. Highly recommend for anyone interested in learning more about love and in what ways people respond to and show love. I learned about my own love language and my boyfriend's love language. Very interesting and inspiring.

I really loved this book. It was recommended by a friend of mine after her and her husband read it together, and my husband is starting it now as well. It really "clicked" and made sense as I was reading what our love languages were and what ways we were or were not filling our love tanks. We already have a wonderful marriage but the ideas in this book will make us even stronger. I'm excited for him to finish his men's version as well so we can discuss it on our next date night. :) I really enjoyed reading the personal stories of other couples that the author included in the book as well. It showed how these ideas can really help in almost ANY situation. We've decided our toddler is most definitely someone with a "physical touch" love language and we will be purchasing the version for children as well.

Purchased two books, one for my daughter and one for her boyfriend. They are looking forward in reading this together and have just finished reading and going through, *Whatever Is...: A Couple's Devotional for Christian Dating in a Secular World*.

Friend recently divorced & it helped her understand a lot of what or why things happen. She's on the mend earlier she feels because of its influence. These books (Five love languages) on children & teens are wonderful too.

My other half and I quite enjoyed this book. We began reading it in hopes of better identifying what was already evident to us as different communication styles, and now have a better understanding with good examples of how to "read" and "reach" each other in a way the other person will understand. The quiz at the end helped us rank/prioritize our individually-favored styles, and we appreciated the opportunity to share insight into why we chose what we chose. Definitely a great tool that put words to what we already knew were individual differences, and have seen improvement since. Would recommend a look.

Have heard so many people comment as to what a great book this is. I read parts of it while on the plane to a bridal shower, for my future granddaughter in-law. It was a gift for she and our eldest grandson. I like what I read, and it was easy to understand and could be used in all kinds of relationships, not married couples.
