After I saw *In the Heights* it quickly became my new favorite musical. I took my boyfriend to it for his first Broadway musical and he fell in love too. So much that he's memorized almost every single word of the soundtrack and it gets stuck in his head hours after he's heard it. I collect a lot of the piano/vocal books for Broadway shows and this one is just as good...it covers all the main songs and then even some of the group numbers. The arrangement is beautiful, especially for "Breathe" and "It Won't Be Long Now". Some numbers don't transfer as well to piano, such as "96,000" which features a lot of rapping and beats, but that's the same in almost any musical. You can't really expect to play piano along to a song that doesn't feature much instrumentation so it's not a surprise.

Overall, it's a great book and features amazing music with songs that still make you tear up every time you hear them.

Arrived quickly. Note that a couple of the songs are shortened versions than in the actual production for purposes of performing them outside of the show (ie In the Heights-Opening and 96,000).

One of my favorite musicals! I'm so glad my culture is written in Broadway history!

Exactly what I was looking for!

My 14 year old daughter is Lin Manuel's #1 fan and she LOVED her Christmas present :)
