The Red Pocket Book Of Spanish Verbs : 333 Fully Conjugated Verbs

Synopsis

Based on the popular language "bibles," The Blue Pocket Book of French Verbs and The Red Pocket Book of Spanish Verbs are the most comprehensive, clearest, and easiest-to-use sources for beginning and intermediate learners. Now these books are even more convenient for school or home use thanks to their smaller trim size. But these pocket-sized guides are still mightier than all of the competition in this format. These portable guides offer smooth sailing through the turbulent seas of a new grammar with: 333 fully conjugated verbs, listed alphabetically Current idioms and expressions for each verb Full facing page of usage examples for the top50 verbs One-stop, at-a-glance verb-tense profiles More than 2,200 verbs cross-referenced to models A handy guide to deciphering irregular verb forms English index to the model verbs

Very helpful. I like this.

Because I already own The Red Pocket Book of Spanish Verbs in hardcopy I didn't bother to

sample it first. That was a mistake I'll never make again. The hardcopy book is a wonderful and useful reference, but the Kindle version is so poorly formatted that it is virtually unusable. This is an egregious example of a publisher simply converting from paper to electronic format with no thought to the differing requirements of the two media! Trying to look up a single verb is nearly impossible.

Great productQuick shipping

As described. Thanks!!

The list of 333 verbs is not searchable. The page number for the conjugation is noted in the index, but since the kindle uses "locations" I have been foiled in any attempt to find the complete conjugation table easily. The index of verb is also in very small print, and I cannot enlarge it. I'm sure it's great in the printed version, but it is useless to me on the kindle.

Now one doesn't have to go to many books to look for conjugated verbs. it is all here in this one small, compact book.

Good book for anyone needing 333 Fully Conjugated Verbs of the Spanish variety. Purchased for college aged daughter - she uses it frequently.

this book is good at doing what it's supposed to do (conjugating in all tenses) with the verbs it provides, but its selection of verbs is questionable. why include 'publicar' (to publish, publicize) and not include 'olvidar/olvidarse' (to forget)? it does have an english-spanish verb index and a more comprehensive spanish verb index in the back, though in the former it doesn't list the translation of 'to discuss', which seems like a common enough verb to me. there's also an irregular verb form index which i haven't referred to yet. it's a small book, and well laid out and easy to use, but i mean come on.
