Customer Reviews

Although this book was around when many of today's parents were youngsters, it has remained a steadfast must-have in every toddler's library. For starters, it's a great vocabulary guide that names the many things that go (and some that haven't a prayer of going, but are great fun to imagine anyway). It's also teeming with detail-rich scenes and characters on every page, teaching children the rewards of looking long and closely (such as finding the hidden "Goldbug" in each spread). Along the way it entertains with the silly and slapstick--everything from toothpaste and toothbrush cars to six fire department vehicles that show up to extinguish a ladybug-size fire in a miniature pink convertible. What's most amazing about this book, however, is its longevity. When you purchase it for your fledgling talker, you should consider it an investment. Even 11-, 12-, and 13-year-olds are known to pore over the book nostalgically, cooing at Lowly Worm and eagerly tracking Officer Flossie's book-long chase after that irresponsible, speedster driver in a cowboy hat. (Ages 2 and

older) --Gail Hudson

This book is about objects with wheels that can roll.

Simple summary, as the pig family goes out for a picnic they share the road with all sorts of improbable vehicles. While many of the cars and trucks are based on real vehicles there's also cars based on pencils, rolling cheese wedges, hot dogs or eggs. If only real road trips were this entertaining! I remember this book from when I was a kid, I even remember drawing my own wacky cars. It's been a big hit with our twin girls (age 3) and should have a place on any toddler's book shelf.

I love this book! You can only call a truck a truck so many times. Then it become a red truck or a yellow truck. But eventually there are so many trucks and they don't look anything alike. It's confusing. Nice to have a book that shows you cement mixer trucks, pick up trucks, car carrier trucks, semi tractor trailer trucks and the list goes on and I've only written about trucks. This book will take months to see it all. Something different every day. All of Richard Scarry's books are written this way. I recommend them highly! And the kids are getting an education without even knowing it. Not scary at all.

My husband's favorite book when he was a kid and now my toddler's favorite book! He absolutely loves looking for the gold bug on every page (better than *Where's Waldo*) and gets so excited when he finds it. This book keeps my toddler occupied longer than anything else. I just bought another copy for my friend's kid.

Goodnight, Moon. Mike Mulligan and His Steam Shovel. Make Way for Ducklings. The Snowy Day. Chicka-Chicka Boom-Boom. Some children's books defy review. They've entered a sort of Book Valhalla off limits to mere mortals. Richard Scarry's *Cars and Trucks and Things That Go* is part of that pantheon. Engrossing, enchanting, and energetic, it captures a vibrant world of moving machines and the people who love/operate them. Scarry fills every nook and cranny with action and life; his works certainly served as template for *Waldo* long before anyone wondered where he was. Words put meaning to pictures and vice versa. Children will get lost in these pages. And so will their parents. How much more classic can a book be? None. None more classic. Get it for your burgeoning reader. For your hyperactive intellectual. For your munchkin mechanic. For any little one

you love.

You either dig Richard Scarry or you don't. Both my husband and I do, so we got this book for our auto-obsessed toddler. It was an instant hit. And for nearly a year now, our son reads this book every single day (sometimes more than once a day). He loves identifying all the vehicles over and over and over again.

This book excites my son like no other. He loves the all the different vehicles and even at 20 months old finds Richard Scarry's illustrations as humorous as I do. I think we'll be reading it for years to come, although right now we mostly point at things and turns pages excitedly. He is beginning to care about the beginning of the story which describes the long, hilarious journey of the Pig Family's day trip. This was a favorite book of mine as a child and I'm delighted to be sharing it with my child now.

Richard Scarry was one of my husband's favorite authors when he was growing up. We gave three of his books to each of our grand nephews for Christmas this past year. We have only received glowing reports from all families. My husband was on a business trip and went into the new American Express Centurion Airport Lounge at the George Bush International Airport in Houston Texas. He was checking out the new digs and stuck his head into the children's playroom to look around and saw Scarry's book "Cars and Trucks and Things That Go". He took a picture of it, tested it to me, and asked me to please order these books for Cassel, Tate and Nico. I did, and now we receive pictures and video of the little boys (2 1/2 -3 yrs) reading and perusing the books with their folks and even by themselves. Great rediscovery for the kids.

Scarry was simply a genius. This book is just one of many examples why. I'm pretty sure we have the entire collection and this is one of little girls favorites. She loves searching for goldbug and all of the fantastical cars will keep both you and your little one entertained. My most favorite series of books from our favorite kids author.
