I love mug recipes, they're my favorites. I appreciate that this author made this book and I can say that I liked the recipes that were included on this. I like how the recipes were written and how the author wrote the instructions and ingredients arranged in bulleted form, this makes it easy for readers like me to follow the instructions. On one hand, I'd appreciate the book more if there were sample pictures on every recipes. Impressive recipe book! Love this book! If you have ever wanted a little something but didn't want the mess and cleanup of making a whole bunch this is what you need. Easy, simple, and very tasty. Really worth trying recipes!

Preparing meals can be delightful and a healthy option since the ingredients used are personally chosen and handled by only you. But, the problem in the modern era is that cooking is only for a single person. There are much leftovers after preparing meals for a single person. I think mug recipes provide the best solution for this issue. This book contains delicious and wonderful mug

meals recipes for breakfast, lunch, snacks, dinner, and desserts.

I had no idea it was possible to make so many great meals in a mug, and in the microwave. This is PERFECT with summer coming, when I won't want to heat up the kitchen. I can't wait to try the salmon (love that the recipe includes sirachi) and this morning I tried the mug of cinnamon roll cake. It was super easy and delicious!

I'm looking forward to making mug meals

Don't bother. The recipes are uninspired, no photos, and the layout is awful. Waste of money.

great cookbook for a single person or two. Easy to make great things and not make a big mess., I'm getting one for my sister too.....

Great for college students!

These are pretty horrible..maybe not bad flavors but horrible textures!!
