Questions And Answers: Remedies (Questions & Answers)

Synopsis

This study guide uses multiple-choice and short-answer questions to test your students' knowledge of remedies law doctrine. Each multiple-choice question is accompanied by a detailed answer that indicates which of four options is the best answer and explains why that option is better than the other three options. Each short-answer question (designed to be answered in no more than fifteen minutes) is followed by a thoughtful, yet brief, model answer. Q & A: Remedies also includes a comprehensive topical index.

Book Information

Series: Questions & Answers

Paperback: 192 pages

Publisher: Carolina Academic Press (March 28, 2007)

Language: English

ISBN-10: 0820570788

ISBN-13: 978-0820570785

Product Dimensions: 0.5 x 8.5 x 11 inches

Average Customer Review: 4.5 out of 5 stars 10 customer reviews

Best Sellers Rank: #330,891 in Books (See Top 100 in Books) #12 in [Books > Law > Rules & Procedures > Remedies](#) #3599 in [Books > Textbooks > Law](#)

Customer Reviews

I found the questions a little easier than the ones that ended up being on my professor's exam but it was definitely a useful book to go through. I bought the kindle version and used it on my ipad since I couldn't wait for the paper version to ship and the whole experience was very convenient. I could highlight the tricky questions or insightful answers and bookmark to go quickly back and forth between the chapters for the questions and the answers. As for the content, I would have liked to see more questions on contempt, but that's just something my prof focused a bit more on (e.g. Civil/Criminal, jury/judge, summary/non-summary). I also found a few of the questions a bit poorly worded, therefore I rolled my eyes at the answer because I didn't pick up on some nuance the author intended. I can't remember a specific example, but nonetheless that didn't happen too often, so don't be deterred by the first couple of chapters where you may encounter more of that. If your professor hasn't provided many sample multiple choice questions (like mine didn't), this is a great book to cover the bulk of the course. You'll need to do extra review of your notes to hit the more

specific or nuanced aspects of your prof's course though.

This book is great to test your knowledge for all the nuances. I would recommend anyone in law school that is learning the subject. You really shouldn't be without it. This will test your knowledge of the law in a multistate manner that is also small essays. Most people pass it up because it isn't "MBE" but the reality is that if you can't answer the tricks here you will certainly fail the MBE.

I got a solid grade in remedies as a result of going through all of the questions in the books. It was a good purchase.

Study for a week. Worked the question in this book. Got an A!

The Q&A for remedies has great practice questions that are very helpful, particularly for final exams. I am pleased with this supplement, and I plan to use more Q&A products in the future. I recommend it to anyone who is taking a remedies course.

Great review before final exams. There are a few questions that may have some challenges, however most seem very accurate.

This book was a great review for the course. The format makes it useful and the information will prepare you for final exams, if you have a multiple choice or essay. Very well written and covers all the subjects of the course.

Not great format for the kindle since you need to flip between questions & answers, but the content was great. I actually just repurchased to get a hard copy, sucks I had to pay twice, but it was just not working trying to flip to the example answers and back to the questions.
