Customer Reviews

Terrific source of information and images. Beautifully put together. I dislike that it says "idiot's guide"

on the front because it's just a well put together book. I got one for my 8-year old son who loves succulents and one for my mom. Everyone loves their books!

Beautiful photos, and great information. Fantastic book for a beginner/novice. I took one star off because I would have like to see more about hardy succulents.

All kinds of how to on succulents right at your finger tips. Easy instructions from a lady who knows succulents and loves them like I do.

Pretty good info for the beginner.

Great book, lots of pictures and information for beginners.

Great addition to my library as I'm "Nuts About Succulents."

This books explains things well in a nice simple language. Maybe now I can have a better looking plants.

Wonderful book and easy to understand. Anyone interested in succulents and don't know what to do to keep them alive must read this book. Also full of arrangements.
