Winter Jacket: New Beginnings (Winter Jacket Series Book 2)

Synopsis

Book 2 in the Winter Jacket series: There was something about Hunter Dyson that drew Elle to her. Maybe it was her unwavering eye contact. Maybe it was because she never took off her winter jacket in class. Or maybe it was the taboo of a student-professor relationship. They'd overcome obstacles to be together, and now with job security and a healthy, happy relationship, life was supposed to get easier. But she was supposed to have her happy ending. But for Elle, the complications are only just beginning.

Customer Reviews

How do you write a sequel to a lesbian romance masterpiece? Click Buy Now and you will be educated in how to execute exactly just that in WJ2. Elle and Hunter manage to find a way to not only solidify their love affair but also sweep away the taboo associated with student/teacher romances. Unfortunately, forces conspire to challenge their tenuous relationship yet again when Elle grows bored with success in her career and also with the stability she finds in Hunter. I've read this book numerous times since its release and while on the surface we find a selfish Elle making decisions solely based on herself instead of a couple, you can also see under the layers of Elle's self-centeredness a very immature and inexperienced Hunter stumbling to find a way to keep Elle

close. Many times I was compelled to jump into the pages myself and grab both girls by the lapels and shake furiously at their selfishness and inexperience that kept putting a wedge between them. What WJ2 left me with was an exhausted mess worrying over these two amazing characters, and these two can't seem to just get out of their own way when it comes to their love affair. You can bet I won't quit worrying about them until they're together or it's over, for good.

Loooved this book!! Eliza is such a great writer and I have purchased all of her books. She really knows how to draw a reader in with her wonderful characters and the challenges they're faced with always keep me soo engrossed that I finish a novel in hours. Which can be kinda sad cause I hate to see them end... Anyway I had no idea that there was going to be a sequel to Winter Jacket and I cannot even begin to describe how excited I was to find it, not to mention there'll be a third installment of the series!! I highly recommend this book. And of course all of her other ones!

this is the second book of the winter jacket series. it picks up with Hunter and Elle attempting to define their relationship and attraction. throughout this one, they must confront objections and opposition to their relationship from their co-workers, friends and family. Hunter's youth forces her to determine if being with a woman is for her... as for Elle - self-professed serial monogamist who cannot sustain long-term relationships - she must navigate through her feelings of inadequacy and self-sabotage of her romantic relationship. Eliza again captures all of the insecurities with humor and realism. She uses secondary characters like Troi and Nik to explore the emotions that Elle wrestles. this is another great book in the winter jacket series. it is quite passionate again as well

I have heard that sequels are bitter sweet, and hardly ever as good as the first, so I'm very cautious and not looking forward to part II. I'm so happy I didn't skipped this one! I truly think that this story got better with the second installment the characters, especially Elle, devolved so beautifully you cannot help but enjoy the journey! I truly appreciate that the story didn't fall in the typical and predictable path but brilliantly the author manage to develop a great, engaging and even very sexy story without falling on the too fictional situations that usually spoil the realism of the novel. This was such a good continuing of the story that, honestly I am already praying for the next installment, there so much more I would like to know about Elle and Hunter story!

Really enjoyed this sequel to Winter Jacket. And judging by the ending on this one, we should be expecting another? I really can't get enough of these characters! And truth be told, I can really relate

to the story. My partner and I met under similar circumstances with the same age difference. Many of Elle's insecurities regarding their age difference are so on point! Can't wait to read another book by this author, hoping they'll be another in the Winter Jacket series!

I really, really enjoyed this book! I absolutely couldn't put it down once I started reading it this weekend. The love the relationship between Hunter and Elle and the friendship with Troi is so hilarious. I was sad when the book ended but I am really hoping with the way it ended it will mean there will be a third book. Now that I think about it I think this book is really just the build up for the next book there is just too much going on that was left unfinished like what is exactly going on with the new dean? And now that Elle and Hunter "switched" maybe Elle will let go of some of her restraint that she holds back in the bedroom with Hunter??? There are some pretty steamy scenes in the book but I don't want to spoil anything for the readers. You will not be disappointed with this one ladies

I must say Eliza never disappoints. I stumbled unto this sequel only by chance and was ecstatic to see a continuation of one of my favourite books. The characters which sucked you in completely were here again taking us on a journey of new beginnings. I just love the way Eliza writes, her style will propel you into each and every chapter so much so that you feel each emotion, the pain, the joy and the passion (especially the passion lol) of Hunter and Ello. Another great book! I have bought all of this author's books and haven't been disappointed yet. If you are looking for a enjoyable, sweet, steamy romance this is the book for you.

I am completely in love with Elle and this book was a great continuation of the first book. I would love to see where Lentzski takes their story. I did feel like this book lacked a plot arch. There was no real climax. It was more just like I was watching their life happen but there was no Aha! moment. I would love to have a third book though. Without giving away too much of the ending, I would really like to see Elle and Hunter's next adventure. Although this sequel didn't quite read with a normal plot arch it was still very enjoyable and I absolutely loved returning to these awesome characters.
